

Your Boca Raton home, *handled*, while you are away.

We are a Boca Raton family that walks your home every week and takes care of what we find. When something needs attention, we call your approved company, clear them at the gate, meet them at the door, stay until the work is done, and send you photographs. You coordinate none of it.

Sample image, created for illustration. Client homes are never shown publicly.

What we take care of

Every week. We walk the house, run the taps, read the water meter, the humidity, and the temperature, bring in the mail and packages, and photograph every room from the same spot.

When something needs attention. Your approved company is called the same hour. They bill you directly, and we add nothing to their bill.

Before a storm. A storm readiness plan written for your house, carried out when a watch is issued, with the house photographed before and after.

When you come home. The house cool, aired, and ready the evening you arrive.

Your private portal

- Photographs and readings posted the day of every visit, from anywhere in the world
- What needed attention, and exactly what we did about it
- One tap to tell us someone will be home, or to ask us for anything
- Your approved companies, and every repair they made, on record
- A dated history of the house, ready to print

One caretaker who knows your home	Companies checked before they enter	Insured and bonded before we hold a key	Keys and codes, never online
-----------------------------------	-------------------------------------	---	------------------------------

No setup fee. Retainers begin at \$650 a month, month to month. Introduced by your real estate agent? Your first 30 days are complimentary.

“When you lock the door for the season, we want you to stop worrying about the house. We would love to meet you and walk through your home together.”

Rachel
